

Our process is real-word progress

Vineland Research and Innovation Centre is a world-class research centre dedicated to horticultural science and innovation. With a highly-skilled research team, oversight from an independent Board of Directors, engagement from an international Science Advisory Council and collaboration with over 160 global partners including a Stakeholder Advisory Council, our goal is to enhance Canadian growers' commercial success through results-oriented innovation.

We are an independent, not-for-profit organization, funded in part by *Growing Forward 2*, a federal-provincial-territorial initiative.

10 key research and innovation programs

	The Customer Comes First: Putting Consumer Intelligence to Work for Horticulture		Putting Technology to Work for Horticulture: Process Control and Automation Engineering
	Feeding Diversity: Bringing World Crops to Market		The Canadian Hardy Rose Breeding Program
	Opening New Markets: Driving Growth in Canadian Horticulture with New Plant Varieties		Breeding Vegetables for Canadian Production and Global Markets
	Developing Improved Traits for Horticultural Crops		Greening the Canadian Landscape
	Enhancing Quality and Production of Canadian Greenhouse Tomatoes		The Right Tools: Integrating Biological Control Systems for Impact and Results
